Property Exclusively for Elegant Homes. No Business, No Nuisances.

No saloons or livery stables. Nothing to detract from the pleasure and comfort of what a home should be.

Absolute and perfect drainage which has been accomplished by the most skillful engineering.

The air is so pure and healthful that one feels the invigorating effects almost immediately Dundee Place is entered.

Dundee Place will really be a city of homes of a splendid class. It is growing every day. The broad avenue which extends the entire length of the property will have here and there a drug store, a grocery or something of the kind for the convenience of the residents. No where else in the entire limits will business of any kind be allowed.

Another feature --- All houses must have a slate root. Think how rich and tasty that superb city of homes will appear. Every house being covered with a handsome slate roof.

The price of ground is lower NOW than it will ever be again. Many of our best citizens have availed themselves of the opportunity of going in on the ground floor. They will all make money by it, too.

Price of Inside Lots, \$25 per front foot; Corner Lots, \$30 per front foot. Terms---One-third cash, balance 1, 2 and 3 Years as Desired.

Building Loans made on the most liberal terms; where such loans are made we take se cond mortgage for the deferred payments on the ground. Call on us or write for any particulars desired. We will cheerfully show the property at any time.

DEATH OF NELS PLANTEEN.

VERDICT OF THE CORONER'S JURY

George Meyer, His Assailant, Held to the District Court on a Charge of Murder -The Prisoner's Story.

A Blow in the Dark. Nels Planteen, the man who was assaulted by George Meyer three weeks ago, died at his residence Sunday night. On Saturday last

he identified his assailant who is now under Yesterday afternoon at 2 o'clock Coroner Drexel impanelled a jury in the case. The jurors were as follows: Charles

Orchard, Captain James H. Phillips, Jerome C. Pentzei, Lucian Stephens, Charles Emory and E. A. McClure. Dr. M. A. Rebert, who made a post mortem examination of the body, testified that the direct cause of death was spinal menin-

gitis. The brain was found to be very much inflamed and softened on account of the wound in the head. The latter was made by some blunt instrument. It was about an inch and a half above the left eye brow, was an inch long and penetrated the skull. Carl Axen, Emil Gustafson and J. F.

Rodes, were the other witnesses called.

Emil Gustafson said he knews Nelse Planteen for two years. He never saw George Meyer, the accused, until the night of the affair, May 30. They were together from 10 to nearly 12 o'clock that night in a saloon, at the corner of Twentieth and Cuming streets, kept by a man by the name of Brown. He heard no quarreling nor disputes; they were playing pool; there were several other parties there were several other parties present but the witness didn't know them. There was a man with Meyer, but an entire stranger, and he has not been seen since. When Planteen left the saloon, Meyer followed him out. After Pianteen came out of the saloon he went with the witness toward Burt street, on Twontieth, Meyer following them out. Planteen went on while the witness waited Planteen went on while the witness waited until Meyer came up, and then asked him if he wanted anything. Meyer answered, "No." Planteen and the witness proceeded "No." Planteen and the witness proceeded to the corner of Burt and Twentieth and turned to go to Sixteenth street. When in the middle of the street Meyer struck Planteen; he did not know whether it was with a stone or an iron. The blow knocked Planteen's hat off, and witness went after it and flid not see whether Planteen fell down or not. Planteen did not think it was serious.
"What did Meyer say?" asked Mr. Moriarity.

"He was cursing and swearing and asked "He was cursing and swearing and asked Meyer if he wanted any more of that. Meyer and his friend then want on toward Cuming street, and Planteen and witness went to Sixteenth street. Did not see Meyer or his friend any more that night." The witness left Planteen at Chicago and Sixteenth streets and went home. Did not see Planteen any more that night. It was 12:30 c'clock when the witness left Planteen. Planteen bled freely when he was struck, but did not think it was serious.

Gustafson's testimony was not shaken by

Gustafson's testimony was not shaken by very rigid cross-examination.

[Dr. E. O. Svenson, who attended Planteen, was next called. He was called on May 31 osce Planteen at 2821 California street.

Examined a wound in Planteen's forchead, was inchested and left eventrous. The wound the planteen at the left eventrous. ne inch above left eyebrow. The wound ras one inch in length, and the skull was ractured. He called Dr. Blord, chloroformed Pactured. He called Dr. Blord, chloroformed he patient and made a thorough examination of the injury. A fragment of the skulling depressed about a quarter of an inch. he broken bone was removed and attention entinued until Planteen's death at 2 o'clock b Sunday morning. Planteen's death was assed by inflammation, which followed as a cault of the blow. There were symptoms

for several days before his death of inflam mation of the brain.

W. D. Percival, a newspaper reporter, tes-

tified that he heard the statem Planteen made on Saturday ing, in which Planteen charged Meyer with having assaulted him. He also testified to Meyer's statement confessing that he struck Planteen with a door knob.

Hans Nelson, a barkeeper in the saloon in
which Meyer and Planteen met, testified to having seen Meyer, Pianteen, Gustafsen and another man playing pool in the saloon shortly before midnight, and heard them quarreling as they passed up the street, but could not tell what the y said. This closed the evidence, and after a brief consultation the jury returned a verdict that Planteen had met his death at the hands of

George Meyer, and the latter was held to George Meyer, and the latter was held to the district court.

George Meyer, who is charged with the murder of Planteen, is a man of about thirty-five and has an unusually long face. His nose is nearly twice the length of ordinary mortals and his chin is elongated and protruding. He has a thin moustache, stubby beard of about two weeks' growth, and his face is seamed and weather-beaten. He is a man of pow-

powerful build and with even a single blow of his fist could knock any ordinary man of his fist could knock any ordinary man senseless. He says he is a carpenter by trade and lives at Eighteenth and Cass.

When seen yesterday he said he heard that Planteen was dead, but did not believe he should be punished for it. On the night that he gave Planteen the blow which caused his death, the two had been playing a game of billiards in a saloon at Twentieth and Cumings. Meyer says that Planteen was ugly and wanted to thrash a couple of strangers in the saloon, but was dissuaded from it. Meyer beat Planteen in the game of billiards and the latter got very angry over it, and Meyer beat Planteen in the game of billiards and the latter got very angry over it, and when he was outside he made threats of taking Meyer's life, when the man who runs the lunch counter interfered. Meyer says he waited until Planteen and his companion Gustafsen had left then started home. Before he had proceeded two blocks, he was waylaid by Planteen and Gustafsen, who stood on a flight of steps near Twentieth and Webster. By the gaslight he could see a Knife in Gustafsen's hand. He heard Planteen say: "I'm going to fix you!" and at Planteen say: "I'm going to fix you!" and at the same time Planteen reached his hand to his hip pocket as if to draw a revolver, when Meyer remembering that he had a door knob in his pocket, and fearing that the two men were going to kill him, reached for the knob and struck Planteen with it on the head, fracturing the

skull and causing wounds from which Planteen died.

Meyer says he is not a quarrelsome man and the injuries inflicted on Planteen were merely in self defense. If justice is done, he claims, he will be acquitted. His greatest concern is for his wife, who is in a delicate condition and is f., ced to toil for her daily bread on account of his incarnation.

Upchurch, familiarly known as "Father" Upchurch, familiarly known as "Father" Upchurch. church. The order now covers the whole United States and the provinces of Quebec, Manitoba and British Columbia in Canada. This territory is divided into twenty-three separate jurisdictions. These jurisdictions collect and disburse money within their territory. Each one has not less than 3,000 members, and a uniform assessment of \$1 is made upon each member when a death oc-curs. The amount of each policy is \$2,000, and when a surplus accumulates the death losses are paid out of this surplus until it becomes necessary to levy another assess-ment. A maximum rate of assessment is fixed every three years for each jurisdiction, based upon the mortality rate for the preceding five years, with a possible seven added to cover fluctuations. If the number of deaths in a year exceeds this maximum a call is made upon the relief board, which levies an assessment upon the entire twenty three jurisdictions to make good the excess If the desth rate during the three years does not reach the maximum, the excess is used to repay the sum obtained through the relief board. If the death rate does reach the maximum, the amount is not repaid at all. The order has a membership of over 250,000 in the United States and Canada. The membership in Nebraska is a little over 5,000. The maximum rate of assessment in Nebraska is twenty-five. This rate will be fixed again at the next session of the grand
